# How do you estimate your insurance fees?

The insurance fee rate tables can be found in the Asgard Employee Super Account Additional Information Booklet Part 3 – Insurance. The tables provides an indication of the insurance fee that may be payable in respect of each type of insurance cover. You should note however, that these rates are indicative only. The precise rates that you pay may vary depending on some or all of the following:

- your gender,
- your age,
- your occupation,
- any underwriting requirements (which may take into account the state of your present health, and any other relevant factors),
- your Employer’s plan rating factor (Comprehensive Cover only), and
- any additional benefits or discounts that may apply to your Comprehensive Cover.

For more details about insurance fee rates, or quotation of the insurance fee payable for your cover, please contact your financial adviser, or call us on 1800 998 185.

**Please note:** the examples below are for illustration purposes only. They are not a guarantee of your amount of cover or the insurance fees applicable to you.

The following steps show how to calculate an insurance fee:

## Step 3

Multiply the rate by the sum insured divided by 1000 to arrive at the annual insurance fee. Divide this figure by 12 for the monthly insurance fee.

$$\left( \frac{\text{Rate} \times \text{sum insured}}{1000} \right) / 12$$

### Example

Male, computer technician (Occ. Class 3) aged 34 with \$200,000 Life and TPD Protection cover.

The insurance fee for \$200,000 cover is:

#### 1. Life and TPD rate –

\$0.86 per \$1,000 sum insured

#### 2. Occupational Loading for Life and TPD Protection – 1.25

Life and TPD rate = (\$0.86) x 1.25

Annual premium rate for Life and TPD = \$1.075

#### 3. Monthly Premium for Life and TPD

$$= \frac{(\$1.075 \times \$200,000)}{1,000} / 12$$

= \$17.92 per month

## Life and Total & Permanent Disablement (TPD)

### Step 1

Find the annual premium rate applicable for your age in the table, gender and type of cover.

### Step 2

Select the relevant occupation rating and multiply the Life Only, or Life and TPD annual rate by the factor listed below.

Occupational Class	Life Only Loadings	Life and TPD Loadings
1	0.90	0.90
2	1.00	1.00
3	1.00	1.25
4	1.25	1.60
5	1.50	2.00

**Note:** Own Occupation is not available in Asgard Employee Super.

## Salary Continuance

### Step 1

Calculate the sum insured by multiplying annual salary by 0.75.

### Step 2

Find the annual premium rate applicable for your age in the table, gender and type of cover.

### Step 3

Select the relevant occupation rating and multiply the SCI annual rate by the factor listed below:

Occupational Class	SCI Loadings
1	0.80
2	1.00
3	1.50
4	1.75
5	2.50

### Step 4

Multiply the rate by the sum insured divided by 100 to arrive at the annual insurance fee. Divide this figure by 12 for the monthly insurance fee.

$$\left( \frac{\text{Rate} \times \text{sum insured}}{100} \right) / 12$$

### Example

Female, computer technician (Occ. Class 3) age 27, residing in NSW, with an annual Income of \$60,000.

The insurance fee for insuring 75% of Income, with a 90 day Waiting Period and a two-year benefit period, is calculated as follows:

- 1. SCI rate –**  
\$1.24 per \$100 monthly benefit
- 2. Occupational Loading for SCI – 1.50**  
SCI rate = \$1.24 x 1.5 = \$1.86
- 3. Monthly Premium for Life and TPD**  
=  $\frac{(\$1.86 \times \$45,000)}{100} / 12$   
= \$69.75\*

\***Note:** An additional Stamp Duty charge is applicable. See table below. Stamp duty rates are effective from 1 January 2018.
