Important information

This Product Disclosure Statement ('PDS') provides a summary of significant information you need to make a decision about class P units ('units' or 'class P units') in the Plato Global Shares Income Fund (the 'Fund'). It includes references to other important information which is in the Additional Information to the PDS and forms part of this PDS. The important information in the Additional Information to the PDS should be considered together with this PDS before making a decision to invest in the Fund. You can access the PDS and Additional Information to the PDS by calling 1300 010 311 for a copy.

The investment offered in this PDS is available only to persons receiving this PDS (electronically or in hard copy) within Australia. Units in the Fund may not be offered or sold within the US, or sold to, or for the account or benefit of, any 'US Persons' (as defined in Regulation S of the US Securities Act 1933, as amended).

The information in this PDS is general information only and does not take into account your personal financial situation or needs. Before investing, you should obtain financial advice tailored to your personal circumstances.

Updated information

The information in this PDS may change over time. Pinnacle Fund Services Limited may update this information where this does not involve a material adverse change and make it available to you, where permitted by law. You can obtain updated information by contacting us on 1300 010 311. A paper copy of any updated information is available free on request.

Plato
INVESTMENT MANAGEMENT

Section 1: About Pinnacle Fund Services Limited

Pinnacle Fund Services Limited ABN 29 082 494 362 AFSL 238371 ('Responsible Entity', 'RE', 'we', 'our', 'us') is the responsible entity of the Fund. Pinnacle Fund Services Limited is wholly owned by Pinnacle Investment Management Limited ABN 66 109 659 109 ('Pinnacle'). Pinnacle supports the development of high quality investment management businesses and is the distributor of the Fund.

Plato Investment Management Limited

We have appointed Plato Investment Management Limited ABN 77 120 730 136 AFSL 504616 ('Plato' or 'Investment Manager') as the investment manager of the Fund. Plato is a boutique Australian owned, quantitative equity funds manager. Plato's employees are majority equity partners in the business with the remainder owned by Pinnacle.

Plato's investment philosophy is that markets are less than perfectly efficient and a disciplined systematic process can take advantage of these inefficiencies to deliver higher levels of income than the market. Plato's investment process provides very attractive opportunities to generate out-performance, versus an appropriate benchmark, over the longer term.

Neither the Responsible Entity nor the Investment Manager guarantees the performance of the Fund or the return of capital or income. Your investment in the Fund is subject to investment risk. This could involve delays in repayment and loss of income or the principal invested.

Section 2: How the Plato Global Shares Income Fund works

How does the Fund operate?	<p>The Fund is a registered managed investment scheme. When you invest in the Fund, your money will be pooled with that of other investors and you will be issued 'units'. Each unit held in the Fund gives the unit holder a beneficial interest in the Fund as a whole, but not in any particular asset of the Fund. Holding units in the Fund does not give a unit holder the right to participate in the management or operation of the Fund. Each unit in the Fund offered or issued under this PDS is of equal value and identical rights are attached to all such units.</p> <p>We have multiple classes of units on issue in the Fund. These classes have different rights and restrictions. We are required by the Corporations Act to treat all investors within a class of units equally and investors in different classes fairly. This PDS applies to class P units. We will quote you a price for each unit and will keep a record of the number of units you have bought. The unit price is usually calculated at the end of each business day. Generally, the unit price will change in response to rises and falls in the market value of assets in the Fund.</p>		
Applications	You can increase your investment at any time by buying more units in the Fund. When you make an investment in the Fund, your units will be allocated to you based on the entry price for the business day your application is processed.		
Minimum Investments	Minimum initial investment^	\$30,000	^ Or less at the discretion of the Responsible Entity.
	Minimum additional investment amount^	\$5,000	
	Minimum withdrawal amount^	\$5,000	
	Minimum investment balance^	\$5,000	
Unit Price	<p>The entry price is calculated by taking the net asset value of the Fund apportioned to the class P units and adding to it an amount which reflects the estimated cost of acquiring the Fund's assets (subject to the Responsible Entity's discretion to reduce or waive such costs) and dividing the net figure by the number of class P units on issue in the Fund.</p> <p>The exit price of the Fund is calculated by taking the net asset value of the Fund apportioned to the class P units and subtracting from it an amount which reflects the estimated cost of selling the Fund's assets (subject to the Responsible Entity's discretion to reduce or waive such costs) and dividing the net figure by the number of class P units on issue in the Fund.</p> <p>Current unit prices for the Fund are available by contacting us on 1300 360 306 or by emailing service@pinnacleinvestment.com.au.</p>		
Withdrawal	<p>You can decrease your investment at any time by withdrawing your units in the Fund. When you withdraw, your units will be redeemed based on the exit price for the business day on which your withdrawal request is processed. As part of the withdrawal proceeds, unit holders will receive their share of any net income of the Fund corresponding to the class P units for the period of time during which their units were on issue in the relevant distribution period. These proceeds are included in the unit price and treated as capital. Unit holders will also receive their share of the capital value of the Fund corresponding to the class P units on withdrawal.</p> <p>Withdrawal requests can be made daily, and must be received by the Fund Administrator, RBC Investor Services Trust, prior to 12:00pm (Sydney time) on a business day. Withdrawal requests received after that time, or on a non-business day, will be treated as being received on the next business day.</p> <p>There is a minimum withdrawal amount of \$5,000. If your withdrawal request would result in your investment balance being less than \$5,000 we may treat your withdrawal request as being for your entire investment. We will provide investors with advance notice of any compulsory redemption.</p> <p>Electronic transfer of the redemption proceeds can take up to 7 business days, however it is often completed in a shorter period of time.</p>		

NAV	The net asset value ('NAV') of the Fund apportioned to the class P units means the total value of the underlying investment portfolio, less any fees, charges, expenses and other liabilities accrued, which is attributable to that class.
Access to funds	Extreme market conditions can cause difficulties or delays to the Fund being able to sell its assets or requiring it to freeze withdrawals. These circumstances could result in it taking a period of time before you are able to withdraw your investment, or it taking longer than usual for you to receive your withdrawal proceeds. We will not satisfy a withdrawal request if the Fund becomes illiquid (as defined under the Corporations Act 2001 ('Corporations Act')). In certain circumstances we may suspend withdrawals.
Unit pricing policy	The Responsible Entity has a policy for unit pricing discretions it uses in relation to the Fund ('Unit Pricing Policy'). Additional documents may be prepared for this purpose from time to time. This document may be revised or updated to reflect changes in the Fund constitution or the pricing policies of the Responsible Entity.
Distributions	<p>Monthly, subject to the Fund having sufficient distributable income. The net distributable income of the Fund apportioned to class P units is allocated to unit holders on a per-unit basis according to the number of units held in class P at the end of the distribution period. Distributions will be reinvested for additional units in the Fund in the same class, unless otherwise instructed. The post-30 June distribution will include an estimated capital component distribution which will automatically be reinvested for additional units in the Fund in the same class unless otherwise instructed.</p> <p>Distributable income is calculated after the end of each month. In some circumstances, we may also pay distributions at other times where we consider it appropriate. For example, where we believe it is in the interests of existing investors to do so in order to protect them against the dilution of income caused by new investors entering the Fund after the receipt of significant income within a distribution period.</p> $\text{Your distribution} = \frac{\text{The Fund's distributable income apportioned to class P units}}{\text{Total number of class P units on issue}} \times \text{The number of class P units you hold}$

You should read the important information about 'How the Fund works' before making a decision. Go to 'Additional Information to the PDS'. The material relating to 'How the Fund works' may change between the time you read this PDS and the day when you sign the Application Form.

Section 3: Benefits of investing in the Plato Global Shares Income Fund

Significant features

The Fund will typically hold a minimum of 100 stocks and the holding of each stock will not be more than 3% of the Fund. The Fund will have a maximum cash exposure of 10%, although the Fund is intended to be fully invested with cash held for liquidity purposes only.

Futures may be used for cash flow and exposure management so the Fund remains within the cash exposure guidelines. Futures are a derivative product which enables investors to trade movements in various stock market indices in a single transaction. Futures provide exposure to companies without having to buy or sell shares in every company in the index.

The Fund is intended to be managed for zero tax investors. These investors include, but are not limited to, superannuation funds in pension phase and charities. The Fund is likely to exhibit high turnover of investments and investment decisions will be evaluated based on a zero tax rate.

The Fund provides exposure to unhedged global equities, such that changes in the value of the Australian dollar as against the currencies in which the securities are denominated will affect your return. This means, all else being equal, if the Australian dollar falls, this would increase the value of foreign currency denominated securities in Australian dollar terms and conversely, if the Australian dollar rises, this would decrease the value of foreign currency denominated securities in Australian dollar terms.

Significant benefits

Investing in the Fund offers investors a range of benefits:

- (a) investment expertise – access to Plato's investment expertise and quantitative portfolio optimisation techniques;
- (b) diversification – the pooling of assets into the Fund provides investors with access to investment opportunities and diversification that is not available to an individual investor;
- (c) regular distributions – investors in the Fund have the right to receive distributions which are usually paid monthly; and
- (d) income and capital growth – the potential to earn dividends from global shares and participate in any capital growth of those shares.

Section 4: Risks of managed investment schemes

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up that strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The value of investments and the level of returns will vary. Future returns may differ from past returns. Returns are not guaranteed, and you may lose some of your money.

The significant risks for the Fund are:

- (a) market risk – market risk broadly refers to the potential for changes in share prices to result in a loss in the value of your investment in the Fund. The Fund primarily invests in global listed entities and as a result is exposed to the movements in the share prices. Factors that drive changes in share prices may include changing profitability of companies and the sectors and markets in which they operate, investor demand levels, economic cycles, share issues, interest rate movements, business confidence and government and central bank policies;
- (b) Investment Manager strategy risk – if the Investment Manager's investment strategy is not successful, it may result in the underperformance of the Fund, either in absolute terms, or relative to the market, its peers or both. Also, there is a risk that the Investment Manager fails to implement the investment strategy successfully, does not perform as expected or its key staff leave;
- (c) income risk – the Fund's ability to distribute income is determined by the performance of the Fund and general market conditions. Consequently, there is no guarantee that you will receive any income and the Fund is not a fixed income product. Further, the Fund allows for monthly distributions. If, during a financial year, the Fund pays out as distributions an income which exceeds total tax income for that particular financial year, the excess you receive may be treated as a return of capital rather than income. This could have tax implications for you;
- (d) derivative risk – the Fund may use derivatives, specifically listed futures, to manage risk. Changes in the value of derivatives may occur due to a range of factors that include rises or falls in the value of a derivative in line with movements in the value of the underlying asset, potential illiquidity of the derivative and counterparty credit risk;
- (e) liquidity risk – whilst the Fund is exposed to global listed entities and listed futures which are generally considered liquid investments, under extreme market conditions there is a risk that investments cannot be readily converted into cash or at an appropriate price. In these circumstances, the Fund may be unable to liquidate sufficient assets to meet its obligations within required timeframes, including payment of withdrawals, or it may be required to sell assets at a substantial loss in order to do so;
- (f) equity risk – the risk shares will fall over short or extended periods of time. Share markets tend to move in cycles, and individual share prices may fluctuate and underperform other asset classes over extended periods of time;
- (g) counterparty risk – this is the risk that any of the counterparties which the Fund deals with may default on their obligations to pay monies or deliver securities to the Fund. This may result in a loss;
- (h) regulatory risk – the value of some investments may be adversely affected by changes in government policies, regulations and laws, including tax laws; and
- (i) currency risk – investing in assets denominated in a currency other than the Fund's base or reporting currency may cause losses resulting from exchange rate fluctuations.

Risks can be managed but cannot be completely eliminated. It is important to understand that:

- the value of your investment will go up and down;
- investment returns will vary and future returns may be different from past returns;
- returns are not guaranteed and there is always the chance that you may lose money on any investment you make; and
- laws affecting your investment in a managed investment scheme may change over time.

You need to consider the level of risk that you are comfortable with, taking into account factors such as your age, your investment time frame, other assets and investments you have and your overall tolerance for risk.

Section 5: How we invest your money

WARNING: When it comes to choosing to invest in the Fund, you should consider the likely investment return, the risk and your investment timeframe.

Investment return objective	The Fund aims to provide an annual yield that exceeds the yield of the MSCI World ex Australia, Net Returns Unhedged Index after fees. The Fund also aims to outperform the MSCI World ex Australia, Net Returns Unhedged Index.
Investments	The Fund will invest in global listed entities, listed futures and cash.
Benchmark	MSCI World ex Australia, Net Returns Unhedged Index
Portfolio allocation	<ul style="list-style-type: none"> • Minimum of 90% invested in global listed entities and futures. • Maximum of 10% invested in cash, although the Fund is intended to be fully invested with cash held for liquidity purposes.*
Investment guidelines	The weighting of a stock in the Fund's portfolio will not represent more than 3% of the Fund.
Number of stocks	The Fund will typically hold 100 to 600 stocks at any one time.
Suitable investor profile	Tax exempt investors looking for unhedged exposure to global listed equities and who have an investment timeframe of 3 to 5 years.
Risk level	High. This means there is a high risk of losing money in any year. Conversely, the Fund is likely to produce higher returns over the long term.

Fund borrowings	Whilst the Fund is not restricted in its borrowing levels, the Responsible Entity does not intend to borrow on behalf of the Fund.
Suggested investment timeframe	Medium to long-term, being 3 to 5 years.

* The Fund also holds foreign exchange contracts for hedging purposes and these contracts represent a negligible percentage of the Fund's portfolio.

Labour standards or environmental, social or ethical considerations

Plato recognises its duty to behave responsibly in its business activities and towards those whom its actions affect. As an investment manager, Plato believes that a high standard of business conduct, as well as a responsible approach to social, environmental and governance issues makes good business sense and enhances shareholder value.

United Nations-supported Principles for Responsible Investment ('UNPRI') Member

Plato became a signatory to the UNPRI in 2011 after completing significant work in investigating the integration of ESG scores into investment processes in Australia. Plato continues to source new and updated ESG data in order to develop better understanding of the impact of ESG and sustainability issues upon risks and returns in their investment strategies. Plato has also signed up to receive governance issue notifications via the UNPRI clearing house. To find out more about the UNPRI, please visit their website (www.unpri.org/).

Labour standards and environmental, social and governance considerations are taken into account indirectly via earnings forecasts or once the Investment Manager becomes aware of them, but only to the extent that they are expected to affect the future financial performance of the investment. However, the Investment Manager does not have a specific methodology or weightings system for the extent to which these considerations are taken into account when selecting, retaining and realising investments in the Fund.

You should read the important information about 'How we invest your money' before making a decision. Go to 'Additional Information to the PDS'. The material relating to 'How we invest your money' may change between the time when you read this PDS and the day when you sign the Application Form.

Change to Fund details

We have the right to change the Fund's asset classes, asset allocation ranges and investment return objective (including benchmark) without prior notice. We will inform investors of any material change to the Fund's details via Plato's website www.plato.com.au/retail-funds/ or as otherwise required by law.

You should read the important information about 'How we keep you informed' before making a decision. Go to 'Additional Information to the PDS'. The material relating to 'How we keep you informed' may change between the time you read this PDS and the day when you sign the Application Form.

Section 6: Fees and costs

Consumer advisory warning

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

To find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission ('ASIC')** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

What are the fees and costs of the Fund?

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the Fund assets as a whole. Taxes are set out in another part of this document. You should read all the information about fees and costs because it is important to understand their impact on your investment.

Type of fee or cost	Amount
Fees when your money moves in or out of the Fund	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil

Management costs

The fees and costs for managing your investment

Management fee

0.20% p.a.^{1,2}

Performance fee

20% of the Fund's excess return versus its benchmark, net of the management fee.^{2,3,4}

¹ The management fee is payable to the Investment Manager for managing the investments of the class. The management fee is calculated on the net asset value of the class, reflected in the daily unit price, and payable monthly in arrears from the Fund.

² The fees and costs are inclusive of Goods and Services Tax ('GST') and the net effect of any applicable Reduced Input Tax Credits ('RITCs').

³ The performance fee is calculated and accrued each business day and is payable annually, if applicable.

⁴ The Fund's benchmark is the MSCI World ex Australia, Net Returns Unhedged Index.

You should use this information to compare this product with other simple managed investment schemes.

Warning: Additional fees and costs may be paid to a financial adviser if a financial adviser is consulted. The details of these fees and costs should be set out in the statement of advice by your adviser.

Buy/Sell spread

The buy/sell spread is an additional cost but, as it is included in the unit price of the Fund, it is not charged to you separately. The buy/sell spread is the difference between the entry price and the exit price of the units in the Fund. The buy/sell spread is determined by the Responsible Entity to take into account the costs incurred when buying and selling the underlying securities in the Fund such as brokerage and stamp duty (if applicable). As at the date of this PDS, the estimated buy/sell spread added on buying or deducted on selling is 0.30% of the unit price. The following example is based on an application or redemption of \$50,000 in or from the Fund with a unit price of \$1.00.

	Buy/Sell spread	Cost
Application	0.30%	\$150
Redemption	0.30%	\$150

From time to time, we may vary the buy/sell spread. Any revised spread will be applied uniformly to transacting investors while that spread applies.

We have the right to increase the fees or to charge fees not currently levied up to the maximum limits set out in the Fund constitution without your consent. If we choose to exercise this right, we will provide you with 30 days prior written notice.

Example of annual fees and costs for the Fund

The following table gives an example of how the fees and costs applicable to units in the Fund can affect your investment over a one (1) year period. You should use this table to compare this product with other managed investment products.

Example		Balance of \$50,000 with a contribution of \$5,000 during the year
Contribution fee	Nil	For every additional \$5,000 you put in, you will be charged \$0.
Plus Management costs	Management fee 0.20% p.a.	For every \$50,000 you have in the Fund you will be charged \$100 each year. ¹
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during the year, you would be charged fees of \$100. ² What it costs you will depend on the investment option you choose and the fees you negotiate.

¹ The example does not include the performance fee that may apply to your investment. It is not possible to estimate the actual performance fee payable in any given period, as we cannot forecast what the performance of the Fund will be. As the performance fee is charged in addition to the management costs shown in the example, the management costs charged may increase in the future depending on the performance of the Fund.

² This example assumes the \$5,000 contribution occurs at the end of the year and therefore management costs are calculated using the \$50,000 balance only. The additional management costs would be \$10 if you had invested the \$5,000 for the full 12 months. Additional fees may apply, including a buy/sell spread.

Please note that this is just an example. In practice, your investment balance will vary, as will related management costs. Fee rebates may be individually negotiated with wholesale clients (as defined in the Corporations Act).

You should read the important information about 'Fees and costs' before making a decision. Go to 'Additional Information to the PDS'. The material relating to 'Fees and costs' may change between the time when you read this PDS and the day when you sign the Application Form.

Section 7: How managed investments schemes are taxed

WARNING: Investing in a registered managed investment scheme is likely to have tax consequences. You are strongly advised to seek professional tax advice.

The taxation implications from an investment in the Fund can be quite complex and depend on a number of factors, including whether you are a resident or non-resident of Australia for taxation purposes and whether you hold the units as a long-term investment or for short-term trading purposes. The following is a brief summary of taxation information relating to Australian tax residents who hold their Fund units on capital account for income tax purposes:

- Registered managed investment schemes that elect into the attribution managed investment trust regime do not normally pay the tax liability on behalf of Australian resident investors.
- As an investor, you will be assessed for tax on your share of the income and capital gains generated by the Fund. In normal circumstances, you should expect that some income and/or capital gains will be generated each year.

You should read the important information about 'Taxation' before making a decision. Go to 'Additional Information to the PDS'. The material relating to 'Taxation' may change between the time when you read this PDS and the day when you sign the Application Form.

Section 8: How to apply

To apply for units in the Fund, please read this PDS together with the Additional Information to the PDS, then complete the Application Form that's available by contacting us at 1300 010 311.

Applications received, verified and accepted by the Fund Administrator prior to 12:00pm (Sydney time) on a business day will generally be processed using the unit price for that day. For applications accepted after 12:00pm (Sydney time) or on a non-business day, generally the next business day's unit price will apply.

We reserve the right not to accept (wholly or in part) any application for any reason or without reason. No interest is received on application monies, including monies for additional investments, and no interest will be paid to you if for any reason your application can not be accepted.

Cooling-off

If you are a retail client (as defined in the Corporations Act) investing directly in the Fund, you have a 14 day cooling-off period to confirm that the investment meets your needs. If you exercise your cooling-off rights, we will return your money to you and no fees will apply. However, the amount you receive will reflect any movement (either up or down) in the unit price of the Fund which means that there may be tax implications for you. The 14 day cooling-off period commences on the earlier of the end of the fifth business day after we issue the units to you or from the date you receive confirmation of your application.

A cooling off period does not apply to the operator of an IDPS or trustee of a master trust, or other wholesale clients (as defined under the Corporations Act), or where units have been issued as a result of an additional investment or income distribution reinvestment plan.

Complaints

We have a complaints handling policy, and aim to resolve all complaints quickly and fairly. If you have a complaint about your investment, please contact us on:

Complaints Resolution Officer
Pinnacle Fund Services Limited
PO Box R1313
Royal Exchange NSW 1225
Email: teamcompliance@pinnacleinvestment.com.au
Telephone: 1300 360 306

All complaints received will be acknowledged in writing. We will act in good faith to ensure your complaint is investigated and resolved. If the issue has not been resolved within 45 days, you may be entitled to refer your complaint to the Financial Ombudsman Service Limited. They will be able to advise you whether they can assist you in this matter. Please quote the Responsible Entity's membership number to them which is 10252.

The contact details for the Financial Ombudsman Service are:

Financial Ombudsman Service Limited
GPO Box 3, Melbourne VIC 3001
T 1800 367 287 F 03 9613 6399
info@fos.org.au | www.fos.org.au

The Financial Ombudsman Service Limited is an independent body whose decisions are binding on the RE.

Foreign Account Tax Compliance Act ('FATCA') and OECD Common Reporting Standard ('CRS')

FATCA was enacted by the United States (U.S.) Congress to improve compliance with U.S. tax laws by imposing due diligence and reporting obligations on foreign financial institutions, notably the obligation to report U.S. citizen or U.S. tax-resident account holders to the U.S. Internal Revenue Service ('IRS').

Similar to FATCA, the CRS for the automatic exchange of information is a single global standard for the collection and reporting to

tax authorities of information by financial institutions on non-Australian residents.

Accordingly, we may request certain information about yourself (for individual investors) or your controlling persons (where you are an entity) in order for the Fund to comply with its FATCA or CRS obligations. In the event that the Fund suffers any amount of withholding tax (including FATCA withholding tax) and/or penalties, neither the Fund nor the Responsible Entity acting on behalf of the Fund will be required to compensate you for any such tax, except in exceptional circumstances.

Section 9: Other information

Continuous disclosure documents

The Responsible Entity will comply with the continuous disclosure requirements for disclosing entities under the Corporations Act 2001. This means that copies of documents the Responsible Entity lodges with ASIC may be obtained from or inspected at an ASIC office.

The Responsible Entity will also send you free, upon request, copies of:

- the most recent annual financial report for the Fund lodged with ASIC; and
- any half year financial reports for the Fund lodged with ASIC after the lodgement of the most recent annual financial report.

Also, we will comply with our continuous disclosure obligations for the Fund by publishing material information at www.plato.com.au/retail-funds.

Consents

Plato Investment Management Limited and RBC Investor Services Trust have consented to being named in this PDS in the form and context in which they are named.

Plato Investment Management Limited has also consented to the inclusion of statements about the extent to which it takes labour standards and environmental, social and ethical considerations into account in making investment decisions contained in section 5 of this PDS and the statements about its investment philosophy included in section 2 of the Additional Information to the PDS. Plato Investment Management Limited has not authorised or caused the issue of any part of this PDS and takes no responsibility for any part of this PDS other than the inclusion of the statements referred to above.

RBC Investor Services Trust has been appointed as the Custodian and Fund Administrator for the Fund. RBC Investor Services Trust's role as Custodian is limited to holding assets of the Fund. As Fund Administrator, RBC Investor Services Trust is responsible for the day to day administration of the Fund.

RBC Investor Services Trust has no supervisory role in relation to the operation of the Fund and has no liability or responsibility to you for any act done or omission made in accordance with the Custody and Investment Administration Agreements. RBC Investor Services Trust was not involved in preparing, nor takes any responsibility for, this PDS and makes no guarantee of the success of the Fund nor the repayment of capital or any particular rate of capital or income return.

Additional information, privacy and effect of application form

We may provide you with information about the Fund and your investment and collect and disclose your personal information. Also, by signing and returning the Application Form you are agreeing to certain matters.

You should read the important information about 'How we keep you informed', 'Privacy' and 'Additional information' before making a decision. Go to 'Additional Information to the PDS'. The material relating to 'How we keep you informed', 'Privacy' and 'Additional information' may change between the time when you read this PDS and the day when you sign the Application Form.
